## financial services guide

### **Step 1 Financial Check-Up (\$550)**

This is our introductory level service which provides you with a projection of your position at retirement. It will also introduce ideas and strategies which may improve your position.

This is a general advice service which means we leave it to you to assess which strategies are best suited to your circumstances. It is provided through a consultation which typically lasts about an hour.

### **Step 2 Statement of Advice (\$3,300)**

This is our personal advice service. We will listen to you to understand your objectives and circumstances. We will collect all relevant information and ask questions to make sure we provide advice that is in your best interests.

Our advice will be explained thoroughly and documented in a Statement of Advice (SoA) which you can take away and read.

The SoA is the financial plan for the client and will explain the basis for our advice, the main risks associated with the advice, the cost to you of implementing the advice and the benefits we receive.

We will also provide you with Product Disclosure Statements where we recommend a financial product other than securities. These contain information to help you understand any financial product we recommended.

At all times you are able to contact us and ask questions about our advice and the products we recommend.

### **Step 3 Wealth Management Service (\$4,950 per year)**

This service will keep your financial plan up to date for changes in your circumstances, changes in the law and changes in the economy and products.

We will meet with you at least once a year. Our advice will typically be documented in a Statement of Advice (SoA).

## **Providing Instructions**

You can provide instructions to us in writing, via phone or via email. In some cases, we may require you to provide signed instructions.
